In February all Foremen received an adjustment of \$400 to keep their rates 30% above the work supervised. They then receive each year the same increase as the journeymen workers in their trade.

No adjustment was made for Keyworkers until individual rate determinations are announced. The March Photo-engraver change provided for 5% above the journeyman work instead of the traditional 11¢ for keyworkers. This has been applied to 11¢ keyworkers at 5% and 22¢ keyworker rates at 10%.
